Urdu Translation of Hizb ut Tahrir's Book “The Funds in Khilafah State” Launched

Hizb ut Tahrir Wilayah Pakistan has released the Urdu version of the book, “The Funds in Khilafah State” issued by Hizb ut Tahrir. In this book, “The Funds in the Khilafah State and their rules are described”. We explain their sources and types, from where they are collected, the time of their collection and the way they are collected, and the sections in which they are kept. We also explain those who are entitled to these funds and the areas of their expenditure.

Islam is a system of life and a message for the whole world and so it is absolutely necessary for it to have a State which implements it and carries it as an intellectual leadership to the world. Islam has made this State the *Khilafah* State. The Khilafah is of a distinct form and a unique structure, which differs from the structure of all the Kufur States in the world. The Khilafah differs in its pillars upon which it is established, in the structures that it is formed of and in its constitution and laws that are all taken from the Book of Allah (swt) and the *Sunnah* of His Messenger (saw). It is obligatory for the *Khalifah* and the *Ummah* to adhere to, implement and restrict themselves to these matters, because they are from the *Shar'a* of Allah (swt) and not from the legislation of the people. Islam has entrusted the *Khilafah* State with the duty of taking care of the affairs of the *Ummah*, and entrusted it to be in charge of administering the funds received by the State and their expenditure, so as to look after the affairs of citizens, regardless of their race or religion, and the carrying of the *Da'wah*. The divine evidences have explained the sources of the State's financial revenues, their types and how they are collected, in the same way they that clarified the beneficiaries of these funds and the areas over which they are spent.

The rules of the funds of the *Khilafah* State are derived from the Qur'an and the *Sunnah*, after study and scrutiny of the sayings of the *Sahabah*, the *Tabi'een* (the followers) and their followers and the opinions of the *Mujtahideen*. All this is done based on the evidences proven to be the strongest in our view; for the divine rules are adopted based on the least amount of doubt (*Ghalabat uz-Zun*) without the stipulation of the evidences being definitive as is required when establishing the creed.

This book is a splendid gift for those Urdu speaking Muslims who want to know and understand the revenues and expenditure of the soon to arrive, inshaaAllah, Khilafah state (Caliphate) upon the method of the Prophethood.
